

MARICOPA COUNTY INFLUENZA SUMMARY UPDATE

Week ending December 13, 2003 (Week 50)

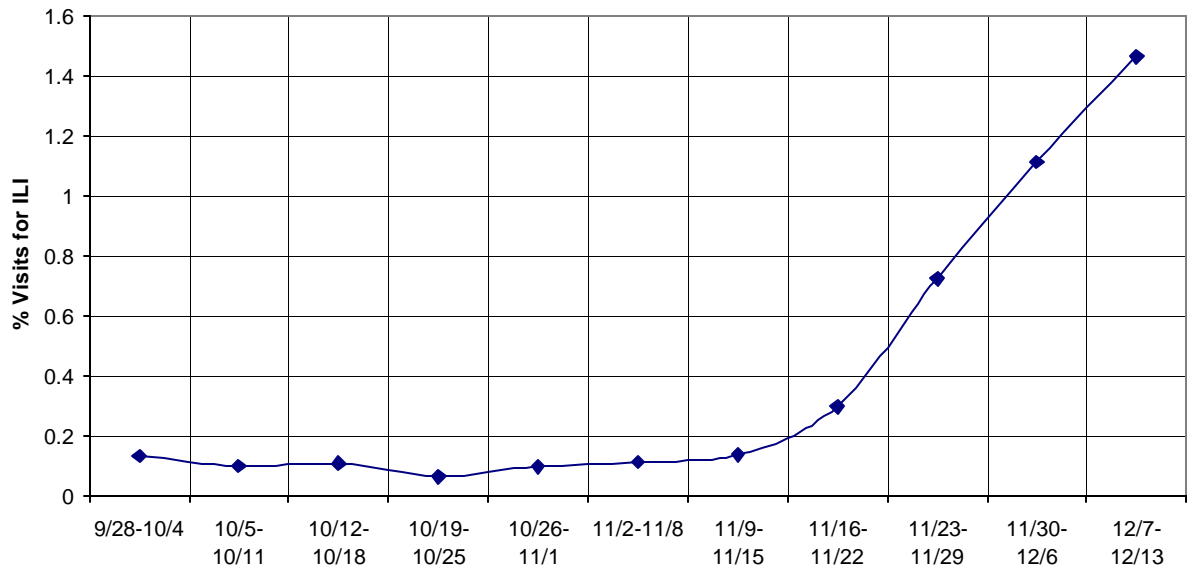

Synopsis: During week 50 (December 7 – December 13, 2003), 316 laboratory-tested specimens were positive for influenza. The proportion of patient visits to Cigna Health Care Centers for influenza-like-illness (ILI) was 1.46%, which is less than the national baseline of 2.5%. The proportion of patient visits to ASU Student Health and Wellness Center for ILI (6.61%) exceeded the national baseline. The overall percentage of ER visits for ILI was 4.74%. The average daily percentage of students absent due to ILI was 2.15%, and the average daily percentage of students absent due to illness was 6.39%. Long-term care center surveillance indicated insignificant influenza activity*.

Laboratory Surveillance: During week 50, 316 unsubtyped influenza type A viruses were identified. Isolates were confirmed at Arizona Medical Clinic, Banner Desert Medical Center, Caring for Families, Grayhawk Pediatrics, John C. Lincoln Bryan Extended Care Center, John C. Lincoln Deer Valley, Phoenix Children's Hospital, Phoenix Internal Medicine, Mesa General Hospital, Sonora Quest Laboratory, Scottsdale Children's Group, Scottsdale Healthcare Family Practice, Scottsdale Healthcare Laboratory, St. Joseph's Hospital Laboratory, Tempe St. Luke's Hospital, and Urgent Care Specialists.

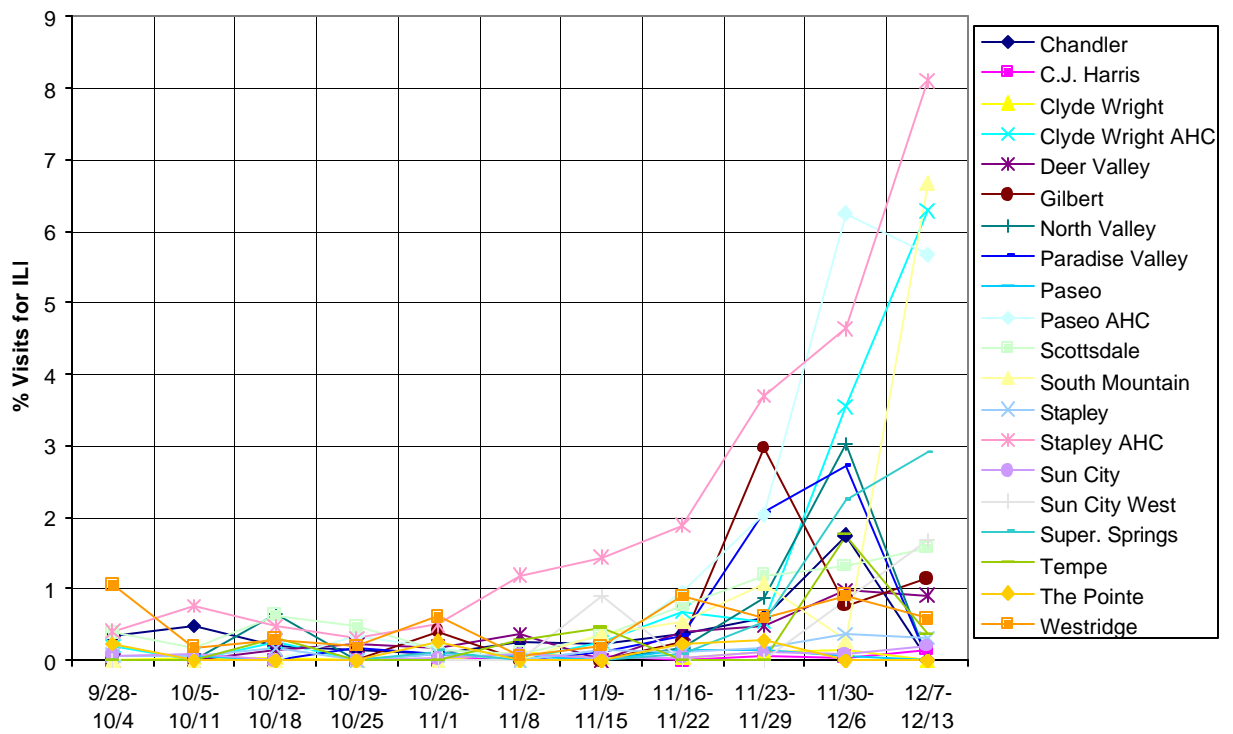

Pneumonia and Influenza (P&I) Mortality Surveillance:** P&I data for week 50 is currently unavailable.

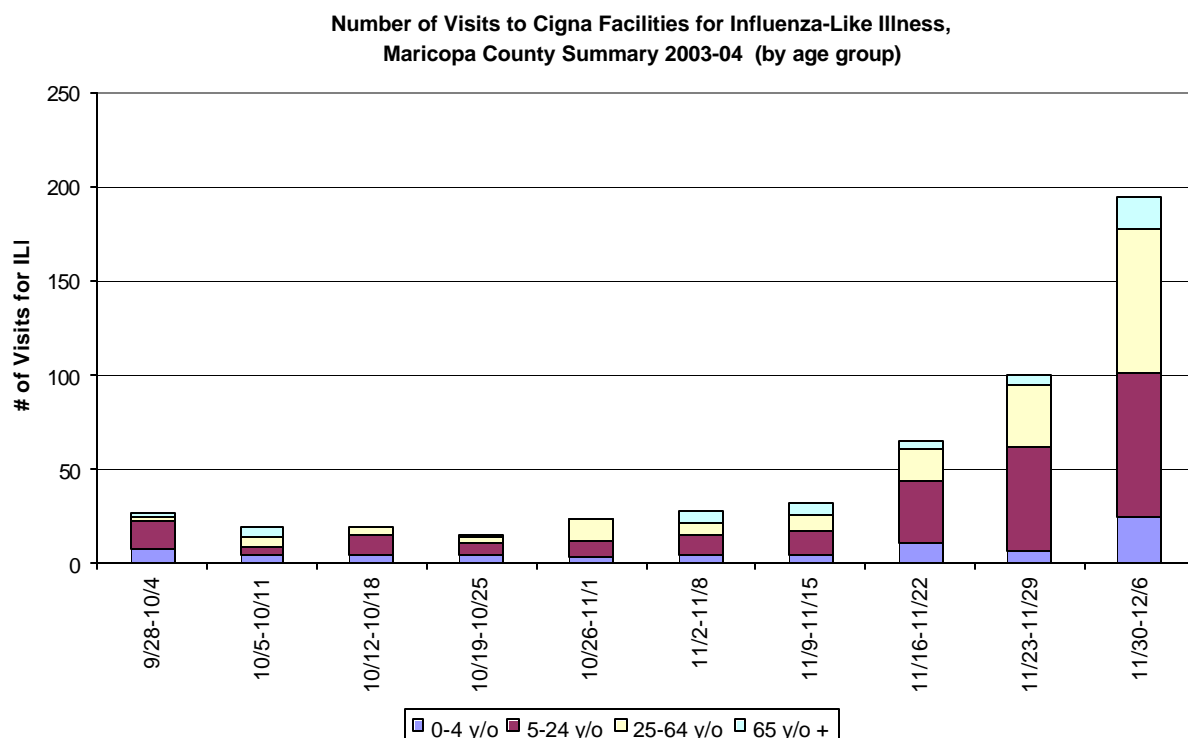

Influenza-like Illness Surveillance:** During week 50, 1.46% of patient visits to Cigna Health Care facilities were due to ILI. This is less than the national baseline of 2.5%. The proportion of patient visits to ASU Student Health and Wellness Center for ILI (6.61%) exceeded the national baseline. The overall percentage of ER visits for ILI was 4.74%. The average daily percentage of students absent due to ILI was 2.15%, and the average daily percentage of students absent due to illness was 6.39%. Due to differences in case definitions, it is not appropriate to apply the national baseline to ER and school ILI data***.

**Overall Percentage of Visits for Influenza-like Illness at Cigna Facilities,
Maricopa County Summary 2003-04**

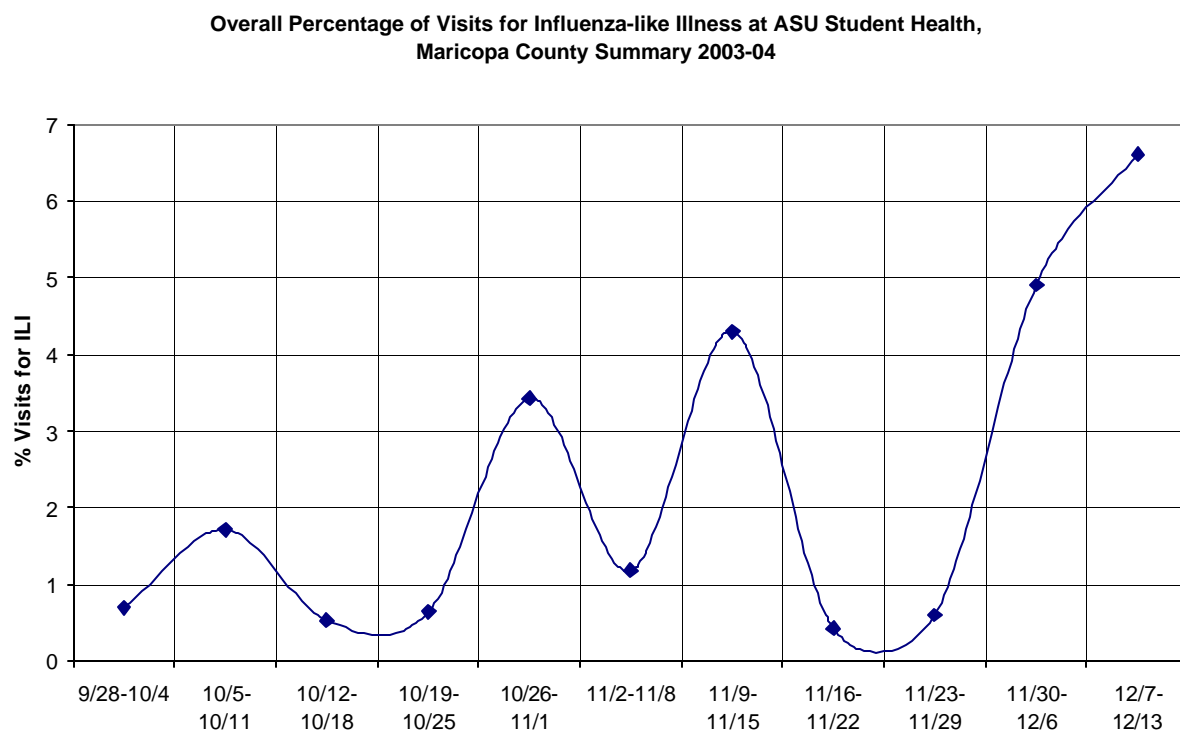

**Percentage of Visits for Influenza-like Illness at Cigna Facilities,
